Eye Protection Mode

Concerns on blue light affecting eye health have risen over the years. Blue light have wavelength between 300 nm to 500 nm, TÜV Rheinland Low Blue Light is a certification for products which meet requirements for lower blue light levels.

When using Eye Protection mode, the blue light will decrease, and it will provide an optimum picture quality suitable for eye relaxation. At the same time, the blue light level is lower than in the default settings, and it was tested by TÜV Rheinland and certified as it met the requirements of TÜV Rheinland Low Blue Light (Software Solution) standards. At the same time, we also recommend that you take regular breaks and look at distant objects for eye relaxation to protect your eyes.

Setting

On the endpoint: Go to **Settings > Display > Display Mode > Eye Protection**.

On the Web interface: Go to **System > Display > Display Mode > Eye Protection**.

Regulatory Notices
Operating Ambient Temperatures
• Operating temperature: 0 to 40 °C (+32 to 104 °F)
• Storage temperature: -30 to +70 °C (-22 to +158 °F)
Relative humidity: 5% to 90%, noncondensing
Warranty
Our product warranty is limited only to the unit itself, when used normally in accordance with the operating instructions and the system environment. We are not liable for damage or loss resulting from the use of this product, or for any claim from a third party. We are not liable for problems with Yealink device arising from the use of this product. We are not liable for financial damages, lost profits, claims from third parties, etc., arising from the use of this product.

Safety Instructions
Read these safety instructions before use.
• Follow basic safety precautions should always be followed to reduce fire, electrical shock, and other personal injury.
• Before you install and use the device, read the safety instructions carefully and observe the situation during operation.
• The main plug is used as disconnection device, the socket-outlet should be near the Switching Agency and it should be easily accessible.
• During the process of storage, transportation, and operation, please always keep the device dry and clean.
• During the process of storage, transportation, and operation, please avoid contact and crash of the device.
• Please attempt not to dismantle the device by yourself. In case of any discrepancy, please contact the appointed maintenance center for repair.
• Without prior written consent, no organization or individual is permitted to make any change to the structure or the safety design of this device. Yealink is under no circumstance liable to consequences or legal issues caused by such changes.
• Please refer to the relevant laws and statutes while using the device. Legal rights of others should be respected as well.

Environmental Requirements
• Place the device at a well-ventilated place. Do not expose the device under direct sunlight.
• Place the device on a stable and level platform.
• Please place no heavy objects on the device in case of damaged information caused by the heavy load.
• Keep at least 10 cm between the device and the closest object for heat dissipation.
• Do not place the device on or near any inflammable or fire-retardant object, such as rubber mats, mats, such as a candle or electric heater.
• Keep the device away from any household appliance with strong magnetic field or electromagnetic field, such as a microwave oven, a refrigerator, a washing machine, etc.

Operating Requirements
• Do not let a child operate the device without guidance.
• Do not let a child play with the device or any accessory in case of accidental swallowing.
• Please use the accessories provided or authorized by the manufacturer only.
• The power supply of the device that meet the requirements of the input voltage of the device. Please use the surge protection power socket only.
• Before plugging or unplugging any cable, make sure that your hands are completely dry.
• Do not spill liquid of any kind on the product or use the equipment near water, for example, near a bathtub, washroom, kitchen sink, near a swimming pool, etc.

Environmental Requirements
• Do not touch on, pull, or over-bend any cable in case of damage to the device.
• During a thunderstorm, stop using the device and disconnect it from the power supply. Unplug the power plug and the Asymmetric Digital Subscriber Line (ADSL) twisted pair (the radio frequency cable) used to avoid lightning strike.
• If the device is left unused for a rather long time, disconnect it from the power supply and unplug the power plug.
• When there is smoke emitted from the device, or some abnormal noise or smell, disconnect the device from the power supply, and unplug the power plug immediately. Contact the specified maintenance center for repair.
• Before connecting a cable, correct the grounding cable of the device first. Do not disconnect the grounding cable until you disconnect all other cables.

Cleaning Requirements
• Before cleaning the device, stop using it and disconnect it from the power supply.
• Use a piece of soft, dry and anti-static cloth to clean the device.
• Keep the power plug clean and dry. Using a dry or wet power plug may lead to electric shock or other injury.

ENVIRONMENTAL RECYCLING
Never dispose of the device with domestic waste.
Always adhere to prevailing regulations.
Those who fail to do so may be fined or prosecuted in accordance with the law. The crossed-out garbage can that appears on the device means that when it has reached the end of its useful life, it should be taken to a special waste disposal centre and treated separately to general urban waste.

Troubleshooting
The unit cannot supply power to Yealink device.
1. Clean the plug with a dry cloth.
2. Connect it to another wall outlet.
The usage environment is out of operating temperature range.
1. Use in the operating temperature range.
The cable between the unit and the Yealink device is connected incorrectly.
1. You may have connected a wrong Yealink device.
2. Use the correct power supply.
Some dust, etc., may be in the port.
1. Clean the port.
Contact your dealer or authorized service facility for any further questions.

EU Regulatory Information
Support Frequency Bands and Power:
Bluetooth 2.4GHz: 20 dBm
WLAN 2.4 GHz < 20 dBm
WLAN 5.15-5.825 MHz < 23 dBm
WLAN 5.825-5.875 MHz < 23 dBm
WLAN 5.875-5.925 MHz < 23 dBm
WLAN 5.925-5.975 MHz < 23 dBm
In all EU member states, operation of 5150-5250 MHz is restricted to indoor use only.
